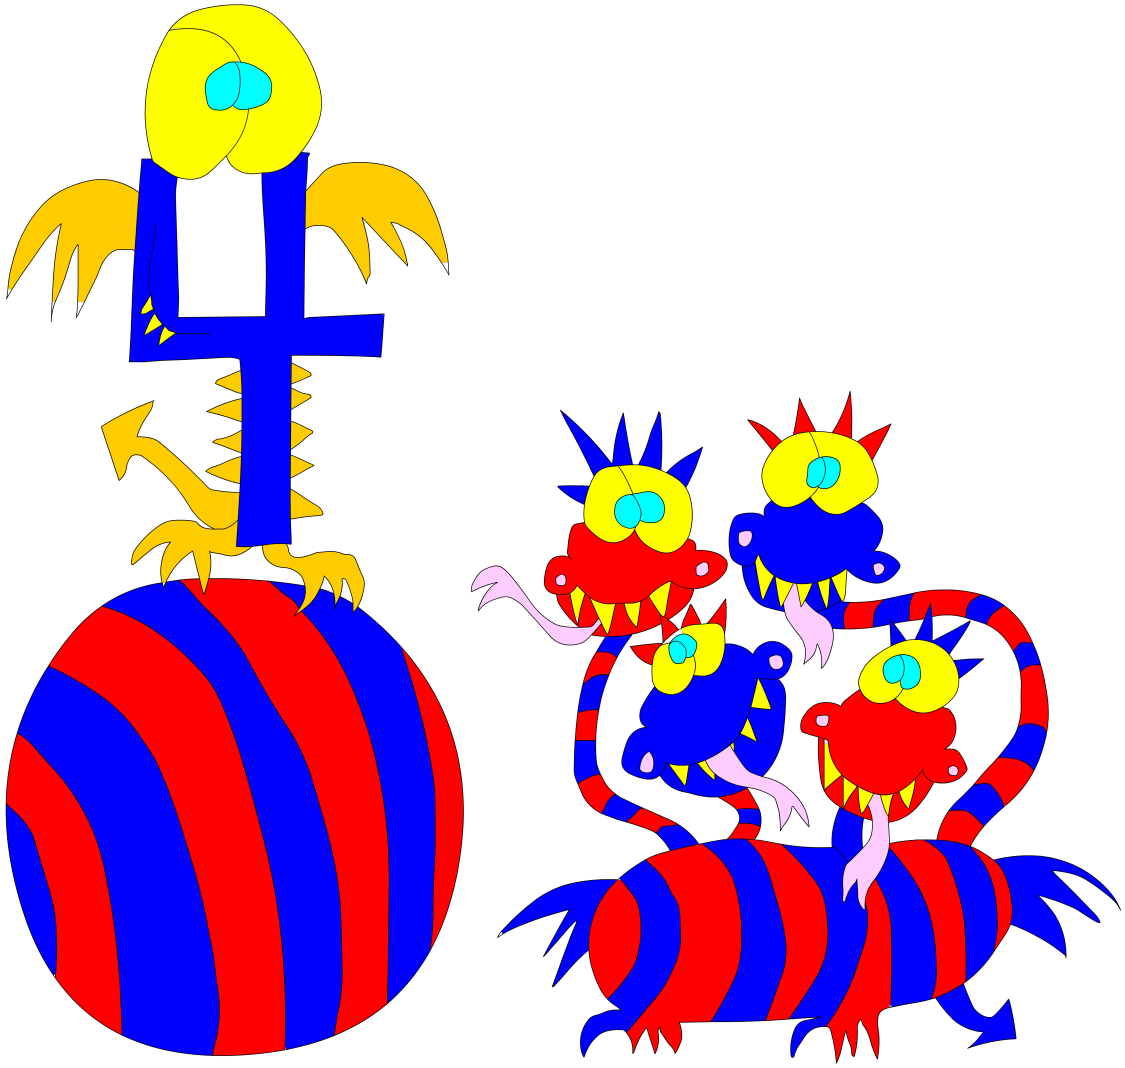
Number Dragons Count, Too!

Good morning, friends! Today, I'm visiting the Number Dragons. They're cousins of the Alphabet Dragons. Today is a special day because the Number Dragons' eggs just hatched! Let's take a look...

I’m Number One Dragon. I have 1 baby.

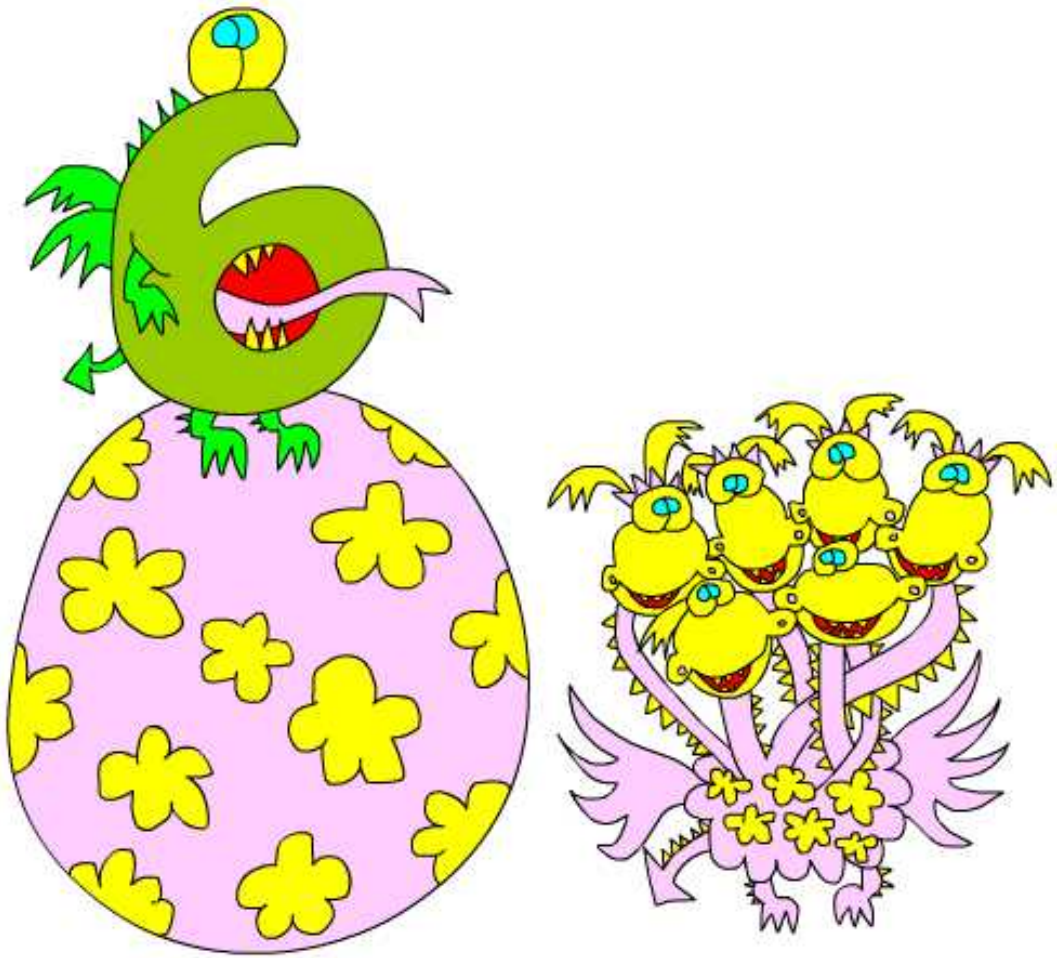
I’m Number Two Dragon. I have 2 babies.

I’m Number Three Dragon. I have 3 babies.

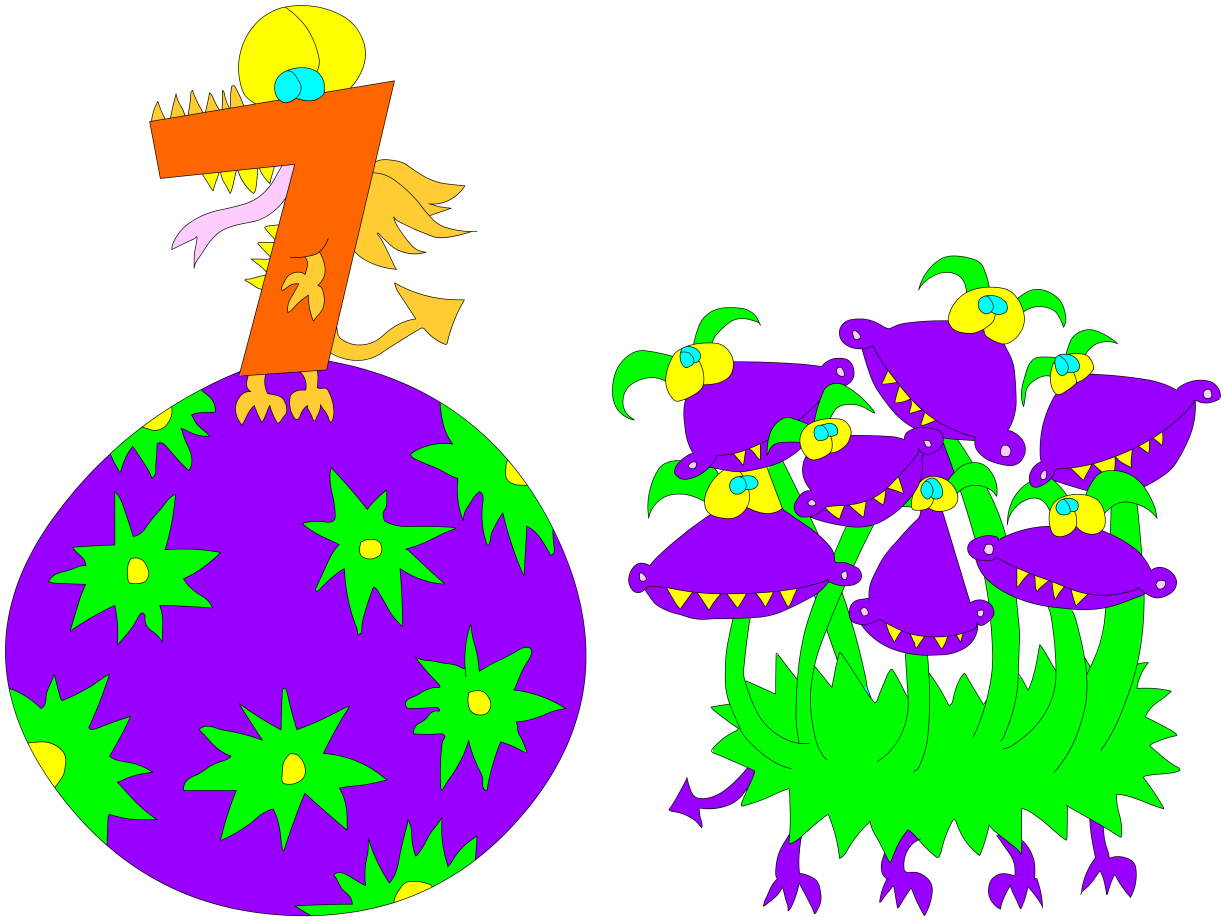


I’m Number Four Dragon. I have 4 babies.

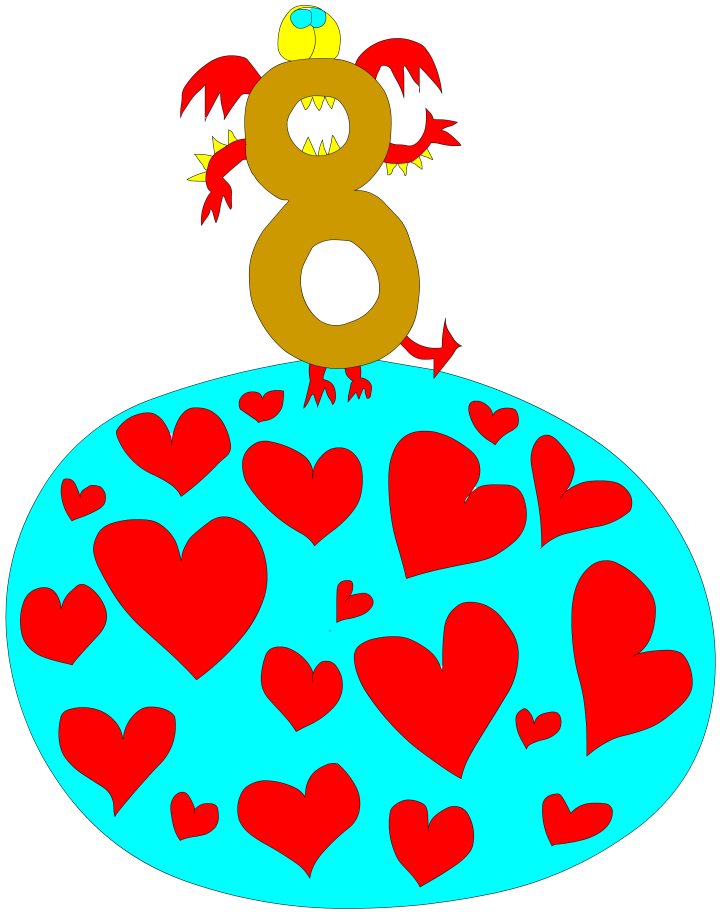
I’m Number Five Dragon. I have 5 babies.



I’m Number Six Dragon. I have 6 babies.



I’m Number Seven Dragon. I have 7 babies.



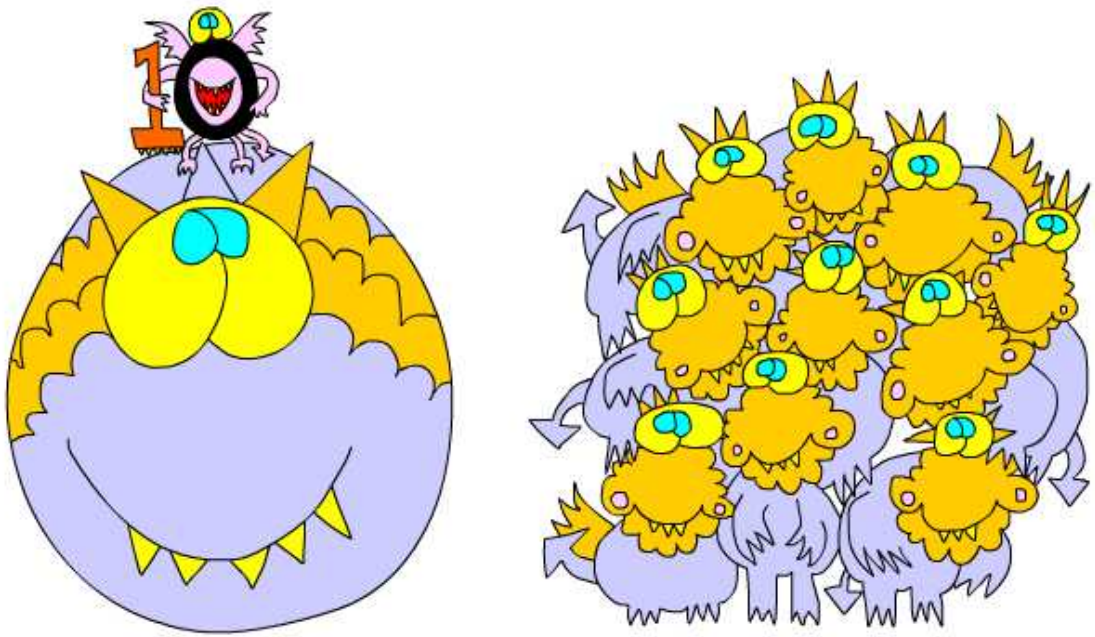
I’m Number Eight Dragon. I have 8 babies.

I’m Number Nine Dragon. I have 9 babies.

What about me, Dragon King? I'm the Zero Dragon and I have (you guessed it…) *NO* babies. I feel like such a zero!

Don’t worry, Zero Dragon!

Just stand here next to Number One Dragon and look what happens…

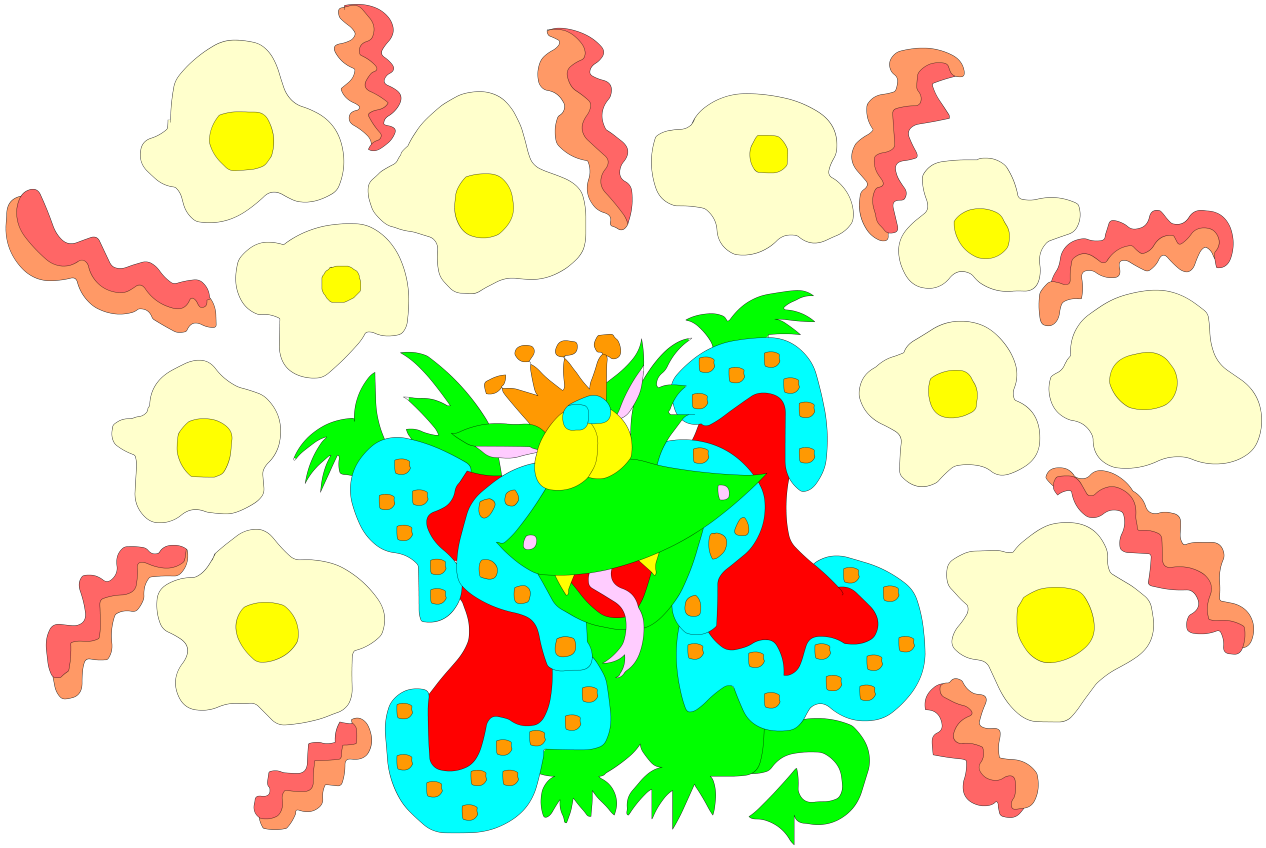


Ooh, that’s better!

When zero stands next to one, it makes TEN.

And so now I have 10 babies.

More than anybody!



Let’s celebrate everybody’s eggs with a big breakfast. Eggs and bacon for everyone!

And remember: you may think you’re just a zero, but you count, too!

THE END
